

# Spring Lake

**Surface Area**  
80 Hectares (198 Acres)

**Maximum Depth**  
9.1 metres (30 feet)

**Elevation (ASL)**  
724 metres (2,375 feet)

**Survey Date**  
August 1960

**Contour Units**  
Feet

Spring Lake, sometimes referred to as Cottage Lake, has been the home of the Edmonton Trout Fishing Club for more than 30 years.

Less than 10 metres deep,

Spring Lake is prone to winter kill. There are aerators in place to offset this problem and ensure delivery of oxygen to the trout.

For rainbow trout fishing,

iFish Alberta user Pikster recommends trying “the deep area southwest of the island about 12-14 feet.”

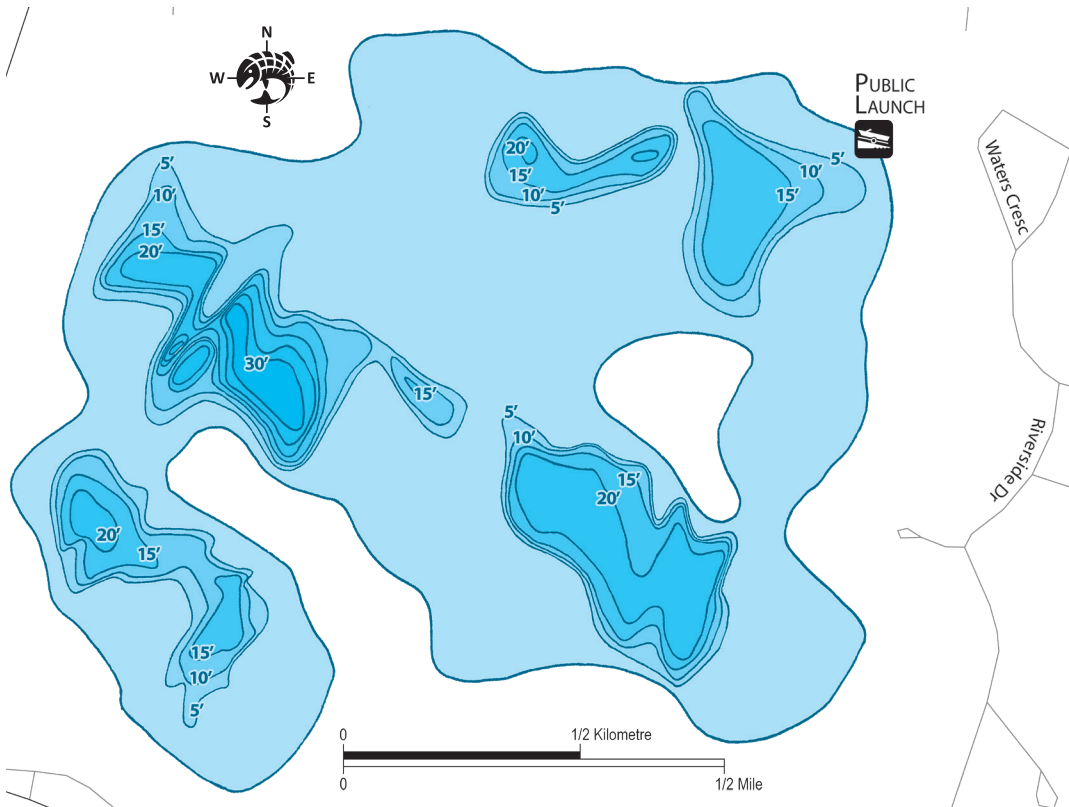

A few patterns recommended by the Edmonton

Trout Fishing Club: Idaho Nymph, Green Montana Nymph, Leech, Dr. Spratley Pheasant Tail Nymph and Woolly Bugger.

## LAKE ACCESS

Spring Lake is a popular recreation area in the summer and is a short drive west of Edmonton. Follow Hwy. 16 west to the turnoff to Edmonton Beach, about six km west of Stony Plain. Follow this road south for seven km to Township Road 524. Turn right and drive three kilometres to Edmonton Beach Resort.

While free public facilities are not available, permission to access this site can be obtained from the resort.

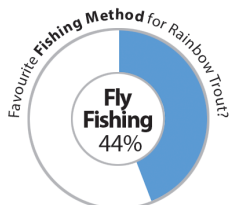

Caution: Do not use this map for navigational purposes. This map may not reflect current conditions. Uncharted hazards may exist. Base Map ©Province of Alberta.
